## **INTRODUCTION**

The Orange County Public Schools' Instructional Personnel Assessment System is designed to contribute toward achievement of goals identified in the District Plan, support district and school-level improvement plans, and promote actions that are consistent with the district's stated purpose for instructional personnel assessment.

## **PHILOSOPHY**

The Orange County Public Schools' Instructional Personnel Assessment System is based upon a philosophical commitment to the concept that the professional development of a teacher is a life-long process. Professional growth occurs continually during an individual's teaching career. The overall purpose of assessment is to improve the quality of instruction and student performance. This purpose can best be achieved by establishing an assessment system comprised of an integrated set of components that include gathering data, sharing information and providing opportunities for professional growth experiences. Contemporary research findings relative to effective practices for the assessment of instructional personnel should be reflected in the activities and techniques employed as this set of system components is implemented.

Please remember two additional components to the assessment system are the Instructional Performance Pay Plan and the option of using the National Board Certification process as the Action Plan for the Professional Growth Plan for continuing contract or professional services contract teachers. The School Board approved Instructional Performance Pay Plan is based on Florida Statute Chapter 1012.225. See the Orange County Public Schools Instructional Performance Pay Plan, Appendix N, for details. The Instructional Performance Pay Plan is also available at [www.pds.ocps.net](http://www.pds.ocps.net), click on Instructional, click on Performance Pay. See page 4 of this document for details regarding use of the National Board Certification process as the Action Plan for the Professional Growth Plan option.

Two additional noteworthy components in the assessment system are an invitation to parents to provide input to the assessment process and the Individual Professional Development Plan. In order to provide input to the assessment process, each school will include the following statement to be placed in their school newsletter semi-annually: "Our goal is for students to learn and achieve. We invite you to give your input on our instructional program. If you have suggestions that will help our faculty improve instruction or services, please feel free to send them to your principal." This invitation will occur during the first and second semester.

The Individual Professional Development Plan is the result of Florida Statute Chapter 1012.98(4)(5). It is designed to increase professional growth of instructional personnel that links and aligns activities with student and instructional personnel needs as determined by school improvement plans, annual school reports, and student achievement data. The need for any training activity defined in a teacher's Individual Professional Development Plan must be clearly related to specific performance data for the students to whom the teacher is assigned. Plans must include clearly defined professional development objectives and specific measurable improvements in student performance that are expected to result from the professional development activity.

## **COLLABORATION**

The Instructional Personnel Assessment System was cooperatively developed by a representative sample of those who will administer and be assessed through procedures prescribed in the system. The system development team was composed of sixteen (16) persons each selected by the Orange County Classroom Teachers Association, Inc. and the School Board of Orange County, Florida.

## **TRAINING**

Instructional personnel will receive training in the assessment process via distance learning or training workshops. The Individual Professional Development Plan (IPDP) can be accessed at [www.pds.ocps.net](http://www.pds.ocps.net).

## **ASSESSMENT PROCESS**

The Orange County Public Schools' Instructional Personnel Assessment System is based on the Florida Department of Education Educator Accomplished Practices for the Twenty-First Century.

1. Assessment – Uses assessment strategies (traditional and alternate) to assist the continuous development of the learner.
2. Communication – Uses effective communication techniques with students and all other stakeholders.
3. Continuous Improvement – Engages in continuous professional quality improvement for self and school.
4. Critical Thinking – Uses appropriate techniques and strategies which promote and enhance critical, creative, and evaluative thinking capabilities of students.
5. Diversity – Uses teaching and learning strategies that reflect each student's culture, learning styles, special needs and socioeconomic background.
6. Ethics – Adheres to the Code of Ethics and Principles of Professional Conduct of the Education Profession in Florida.
7. Human Development & Learning – Uses an understanding of learning and human development to provide a positive learning environment which supports the intellectual, personal, and social development of all students.
8. Knowledge of Subject Matter – Demonstrates knowledge and understanding of the subject matter.
9. Learning Environment – Creates and maintains positive learning environments in which students are actively engaged in learning, social interaction, cooperative learning, and self-motivation.
10. Planning – Plans, implements, and evaluates effective instruction in a variety of learning environments.
11. Role of the Teacher – Works with various education professionals, parents, and other stakeholders in the continuous improvement of the educational experiences of students.
12. Technology – Uses appropriate technology and learning processes.

The recommended components and procedures for the Orange County Public Schools' Instructional Personnel Assessment System have been developed to complement the philosophy established for the system. This system includes components and procedures that provide for the professional development of instructional personnel new to the profession and/or the school district. Special components and procedures are included to enrich the knowledge and skills of experienced teachers toward making professional growth truly a life-long process.

## **ANNUAL CONTRACT TEACHERS**

1. The OCPS Instructional Personnel Assessment Instrument, the Florida Performance Measurement System (FPMS), the Individual Professional Development Plan process (IPDP), and supplemental data gathering strategies and forms will be used as the performance assessment of annual contract teachers.
2. The teacher will be assessed at least once each semester (twice each school year) with one or more observations occurring prior to each assessment. Assessment shall include but not be limited to data collected through the observation process.
3. Assessment occurring during the first semester will be considered preliminary and the forms are for school work location use only. The preliminary assessment will be used for planning purposes only.
4. Each formal observation shall be followed by an assessment conference held between the teacher and principal/supervisor.
5. At first indication of an area in need of improvement, either the evaluator or evaluatee may initiate the Professional Improvement Plan in order to resolve the area of concern.
6. A Professional Improvement Plan must be written when the following circumstances occur:
  - a. A criterion on the OCPS Instructional Personnel Assessment form is rated as "needs improvement" or "unsatisfactory."
  - b. A teacher requests that a Professional Improvement Plan be written.
7. Teachers new to the district who are eligible for fast track certification will be assessed the same as other annual contract teachers.
8. Failure to show growth on a Professional Improvement Plan may result in an "unsatisfactory" rating on one or more criteria on the assessment form.

9. An “unsatisfactory” rating on one or more criteria on the final assessment may result in the nonreappointment of a teacher.

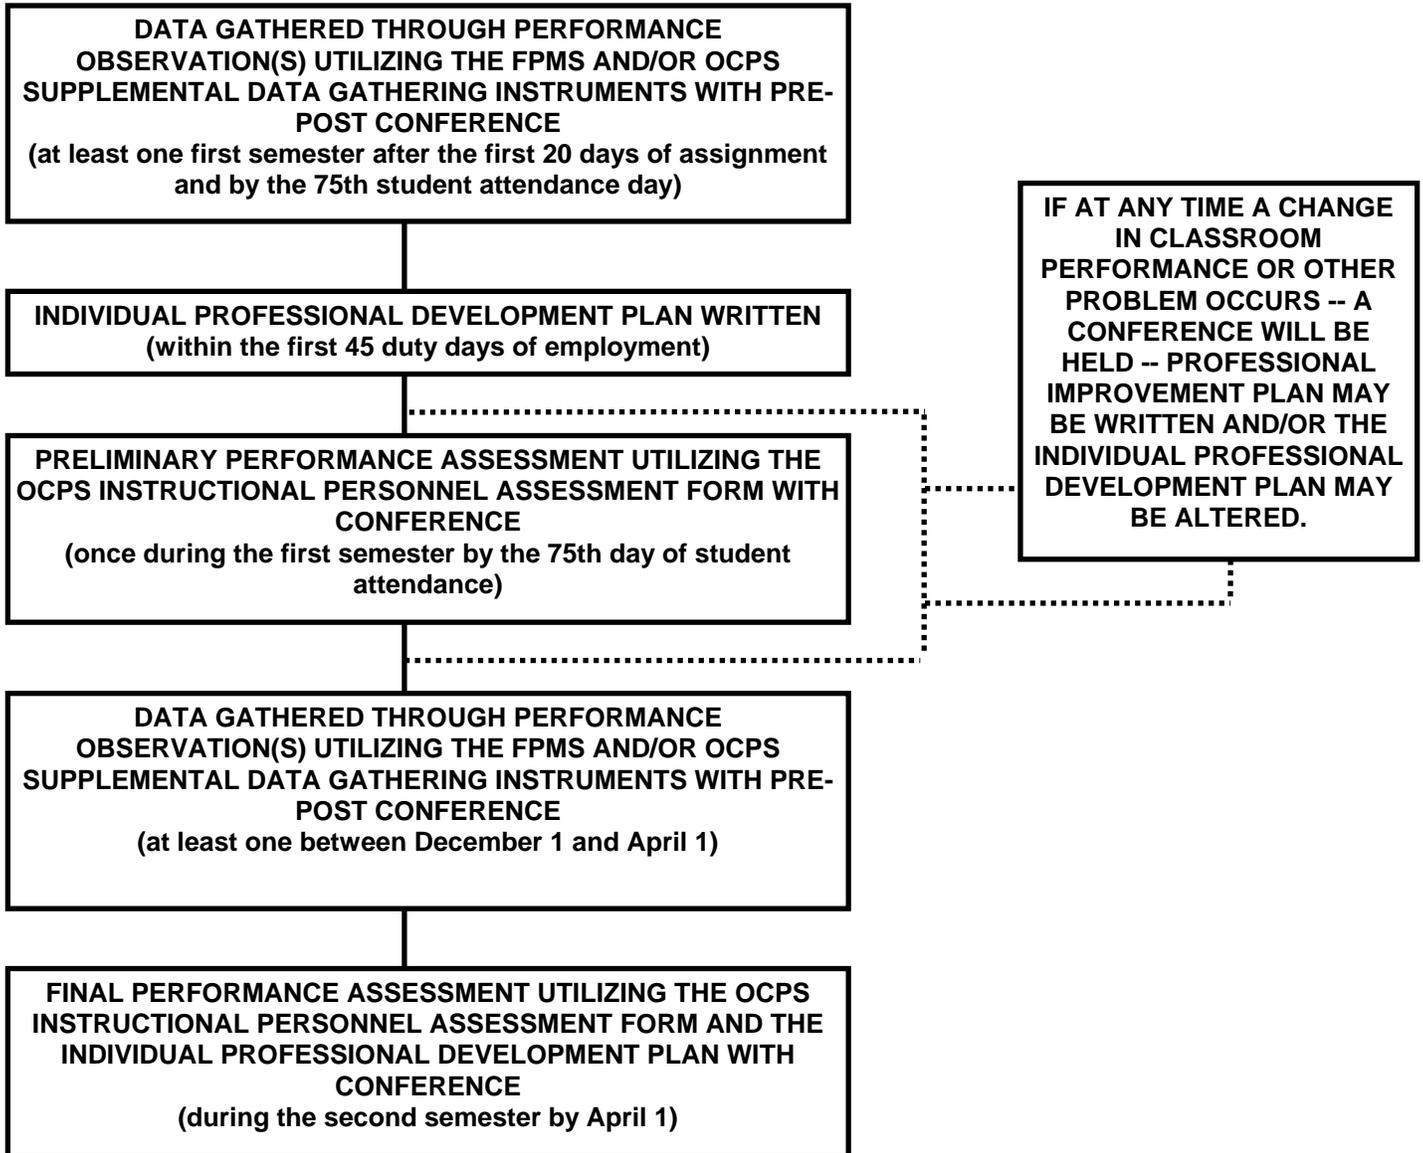

### **CONTINUING OR PROFESSIONAL SERVICES CONTRACT TEACHERS**

1. The process for the assessment of teachers holding a continuing contract or professional services contract will include the use of the OCPS Instructional Personnel Assessment Instrument, either data collection using the FPMS Summative Observation Instrument, OCPS supplemental data collection instruments or the development and implementation of a Professional Growth Plan, and the Individual Professional Development Plan process.
2. The implementation of the National Board Certification process may be the Action Plan for the Professional Growth Plan. Teachers who withdraw from the National Board Certification process after the Professional Growth Plan has been implemented, after the first 45 days of the school year, will be assessed using either the FPMS Summative Observation Instrument or OCPS supplemental data collection instruments.
3. At first indication of an area in need of improvement, either the evaluator or evaluatee may initiate the Professional Improvement Plan in order to resolve the area of concern.
4. A teacher who selects the Professional Growth Plan option must establish at least one professional growth goal annually within the first 45 days of a school year or assignment to a campus.
5. The goals, based upon the criteria/indicators on the OCPS assessment form or school improvement plan, will be generated by the teacher and mutually agreed upon by the principal and teacher.
6. Support documentation for the Professional Growth Plan will be used to verify the accomplishment of the goal(s) included in the plan. Documentation will be written and mutually agreed upon when the Professional Growth Plan is developed, i.e., observations, video tapes, student productions, student portfolios, teacher portfolios.
7. Satisfactory implementation of the Professional Growth Plan is based on the completion of the identified strategies and accomplishments of the goal(s) as stated in the action plan.
8. When a teacher is participating in the Professional Growth Plan and a change in classroom performance or other problem occurs, a conference will be held to identify a course of action. A Professional Improvement Plan may be written as a result of this conference.
9. When a Professional Improvement Plan is implemented, progress toward accomplishing the strategies on the Professional Growth Plan may be temporarily suspended until the identified problem(s) has (have) been corrected. If improvement in performance does not occur in the time frame established on the Professional Improvement Plan, this may be reflected on the assessment form as a “needs improvement” or “unsatisfactory” rating on one or more criteria. The following year, the teacher will be placed in the formal observation mode using the FPMS summative instrument or other appropriate OCPS observation instrument.
10. Teachers selecting the performance observation mode of assessment shall be assessed at least once each year with one or more observations occurring prior to the assessment. Assessment shall include, but not be limited to, data collected through the observation process.
11. Teachers selecting the Professional Growth Plan mode of assessment shall be assessed once annually at the end of the Professional Growth Plan cycle.

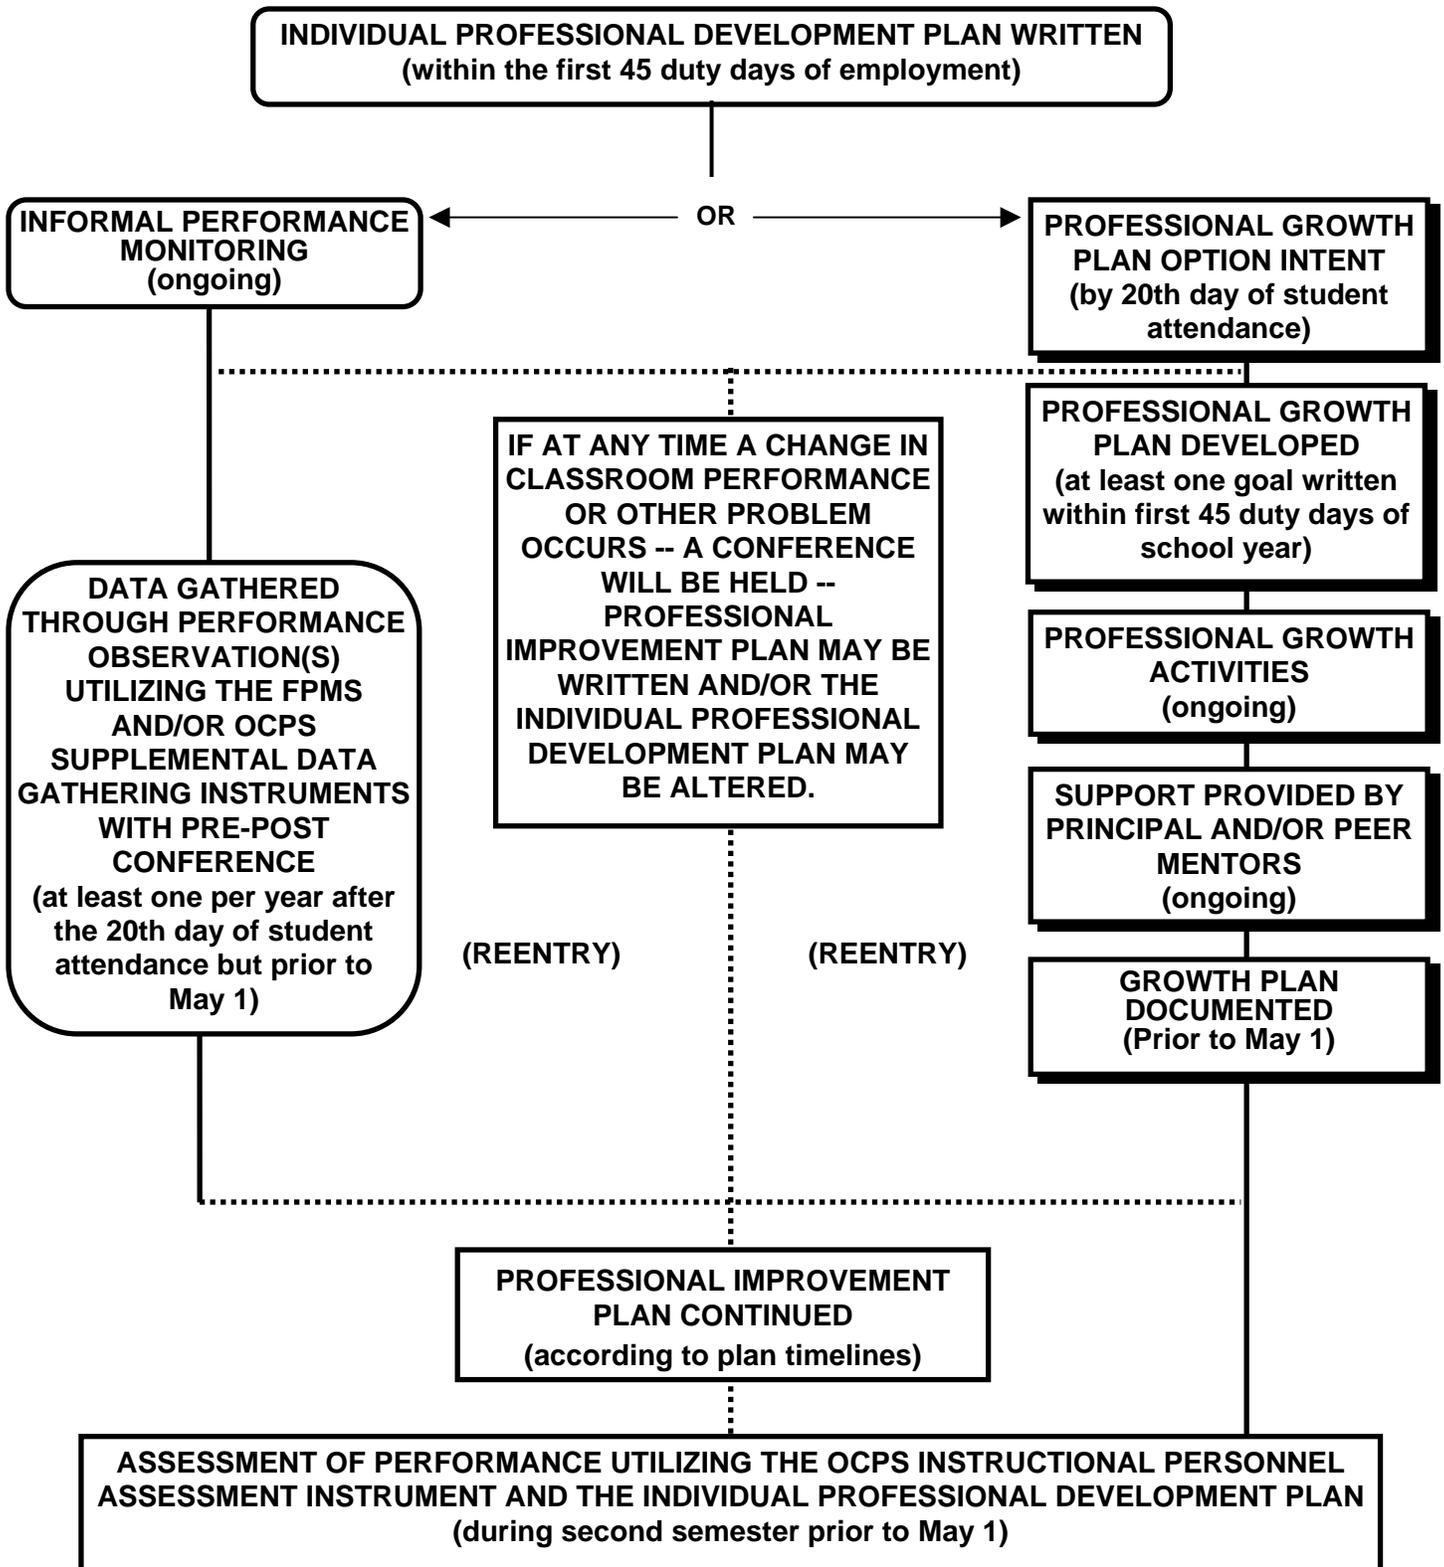

### **GRAPHIC DESCRIPTION OF PROCESS**

Following are two charts that graphically describe the assessment process for both annual contract teachers and those holding a contract of a continuing nature.
