Welcome

TEACH (Training via elearning: An Alternative Certification Hybrid) is an online teacher preparation program leading to 32 Texas teacher certificates. TEACH offers a Texas teacher certification program that specifically meets the needs of the growing diverse student population in Texas classrooms. More importantly, offering much flexibility, the program is tailored to the teacher candidate's learning needs through a completely online delivery system. Online delivery system is housed at TEACH's elearning platform, [tqportal.com](#).

Key Offering

We do not "set-up" our teachers for failure on the TExES!!! Instead, the TEACH Program Fees include two-levels of tutoring, or more, if required, via phone or onsite. TEACH holds TExES practice exams delivered through the TEACH portal for all certificate areas. Teachers challenge the TExES practice exams from the comfort of their homes. As such, TEACH does not require the PACT for admittance into the Program.

Removing the barriers to time, work, and geography, TEACH provides an individual an alternative to a physical classroom. Training for a Texas teacher certificate is twofold. First, the individual acquires the theory necessary to meet the rigors of a Texas classroom in an online classroom. Second, the teacher applies the theories to practice in a 36-week paid internship or a 14-week non-paid student teacher internship. Both internships lead to a Texas Standard Certificate. Guiding the teacher is a team of teachers and professors who bring over 300 years of teaching experience in Texas classrooms. More importantly, TEACH delivers a teacher preparation program which exceeds SBEC Program Hour and [No Child Left Behind Act](#) requirements.

Special Opportunity

While candidates will select a certificate area in which to concentrate, the curriculum's interdisciplinary format prepares candidates with the pedagogical foundations for all certificate areas. Thus, candidates may access, at no additional cost, additional courses to complete the second or third certificate areas.

Advantages

Delivered completely online: online courses, online workshops.

Work at your own pace and time in the comfort of your home.

Enroll at any time! Rolling Enrollment. No enrollment deadlines.

Evaluate transcript & application packet promptly; quick screening process.

Support throughout the program by online mentor, online professor, classroom mentor,

and two classroom supervisors—on going support at all levels, 12/7 connection to Dr. Q.

1 Retired Teacher Mentor, Average, 1:3

3-Year Program Supervisor Support (Two Years Beyond Internship Year)

Access to the TEACH Portal and other resources for the life of the Program. No additional fees required. Future CPE credit available without fees.

Special Assistance:

Veterans, based on the 38 CFR 21.4267, TEACH, a certification program delivered completely online without leading to college diplomas, is not approved for GI Bill funds. However, we can assist you in accessing your GI Bill funds through an onsite

program. Consider, also, connecting to Troops to Teachers, Region 13 or MyCAA. Or, consider the TEACH discounts of \$500 to \$800 toward the cost of the program.

Teachers, who hold more than 2-years of classroom experience. We can assist you in serving a reduced student teacher experience from 14-weeks to 12-weeks.

Teachers who hold a Teaching Assistant position or serve in a Charter or Private school may serve a paid student teacher experience.

Types of Internships

Paid: Teacher of Record, 36 Weeks

Non-Paid: Student Teacher, 12- or 14-Weeks--Number of weeks based on past teaching experience in the classroom

Teacher Assistant: Internship possibility after serving a Teaching Assistant position. Internship possibility: 1) student teacher placement, non-paid or 2) Teacher of Record position, paid. TEACH provides supervisory services to the Teacher Assistant which lead to increased opportunities for a teaching position.

Out-of-State Territory: A teacher may serve a 12- or 14-week internship while living in another state. Pending approval by SBEC. There is an additional fee, above the TEACH Program Fee, for such an internship paid directly to SBEC.

Out-of-Territory Internship: A teacher may serve a 12- or 14-week internship while living in another country. Pending approval by SBEC. There is an additional fee paid directly to SBEC, above the TEACH Program Fee, for such an internship.

Suggested Plan of Action: Most teachers enrolled in TEACH who are serving in schools overseas or other states have access to www.tqportal.com to complete the core courses and prepare to challenge the TExES while teaching overseas or in other states. They [return](#) or [move](#) to Texas to challenge the TExES and serve an internship in Texas. Generally, they serve a 12-week student teacher (clinical experience) internship. Some teachers remain in Texas and others return to their respective states or countries after completing all TEACH and SBEC/TEA requirements for the Standard Certificate.

To date, all such teachers have been U.S. citizens working overseas. Or, foreign-born whose spouses have moved or are moving to Texas to work in other fields. TEACH has offered and continues to offer such services to teachers in Taiwan, Thailand, Italy, Mexico, Canada, Japan, China, Costa Rica, and many U.S. states. While TEACH is eager to assist teachers globally, the SBEC Internship fee is prohibitive. Call Dr. Q @ 512-928-8423 to discuss your options.

Cost of Program:

Application Fee: \$50. However, if you are accepted and you select TEACH as your Prep. Prog. TEACH adds \$50 to your application fee for a \$100 discount toward the Enrollment Fee.

Enrollment & Internship Fees: As little as **\$300** enrolls you in the program. Balance may be paid monthly over 10-months. Program total, \$3500-\$3700 with [discounts](#) & \$300 enrollment fee!!! Email/call Dr. Q for other special offers.

Use the [Contact Us](#) form to reach us!

Job Placement

The **TEACH** Program is well respected throughout Texas. As a result, our teacher placement rate for our graduates, per year, is very high. Many of our **TEACH** graduates, however, after teaching for several years, move into administration or seek an advanced degree. In addition, nearly 89.7%, on average, of teachers who enroll in **TEACH**, each year, secure an internship soon after enrolling. Teachers secure either a student teacher placement (non-paid, 12- or 14-week internship) or teacher of record position (paid, two-semester internship).

Placement Rate	School Year
98.7% to date	2013-2014
96.7%	2012-2013
95.3%	2011-2012
97.3%	2010-2011
95.6%	2009-2010
87.3%	2008-2009
94.3%	2007-2008
92.1%	2006-2007
98.7%	2005-2006
