 [Apply to Teach at YES Prep Now](#)

YES Prep is one of the most outstanding charter school systems in the country because we recruit, train, and develop some of the best and brightest teachers in the nation. Each year, about half of the teachers new to YES Prep are new to the profession of teaching. Either as recent college graduates or professionals in transition, our "new to the profession" teachers were so compelled by our trajectory to alter the educational status quo in Houston that they decided to join us.

Along with an increasingly strong cohort of "new to the profession" teachers, we attract, select and develop a significant cohort of teachers with a background in education. Often, these veteran teachers are compelled to join our team to be a part of a school in which every single person in the building is working for the same mission.

“This organization is the epitome of change and what is right for students. Here, I feel like I have the power to enact change, nurture it, and inspire it in others.”

- Nella Garcia Urban, Managing Director-Talent Pipeline

Teacher Selection Process

HOW TO APPLY

Fill out an application.

Participate in a phone interview.

Teach a lesson at a YES Prep campus and participate in a final interview.
